# Who We Are

## A Global Partner in Compliance & Sustainability

**28+**

### Years of Expertise

Trusted global certification authority since 1998.

**10**

### Country Offices

Local presence backed by global standards.

**80+**

### Countries Served

Worldwide reach covering all major regions of the world.

**100K+**

### Transaction Certificates

Leading position in technical authority and scale.

## Technical Authority

### ISO/IEC 17065 Accredited

A Conformity Assessment Body accredited by IOAS and TURKAK.

### ISO/IEC 17025 Accredited Laboratory

TURKAK-accredited laboratory providing internationally recognized test reports.

### Notified Body 3038

Internationally recognized, Personal Protective Equipment - EU Type-Examination Product Certification.

# Our Growth & Milestones

## Where We Are

USB Certification operates through a network of offices, representatives, and competency hubs spanning **Europe, Asia, Africa, and beyond** ensuring local expertise backed by global standards.

### 📍 **USB Offices**

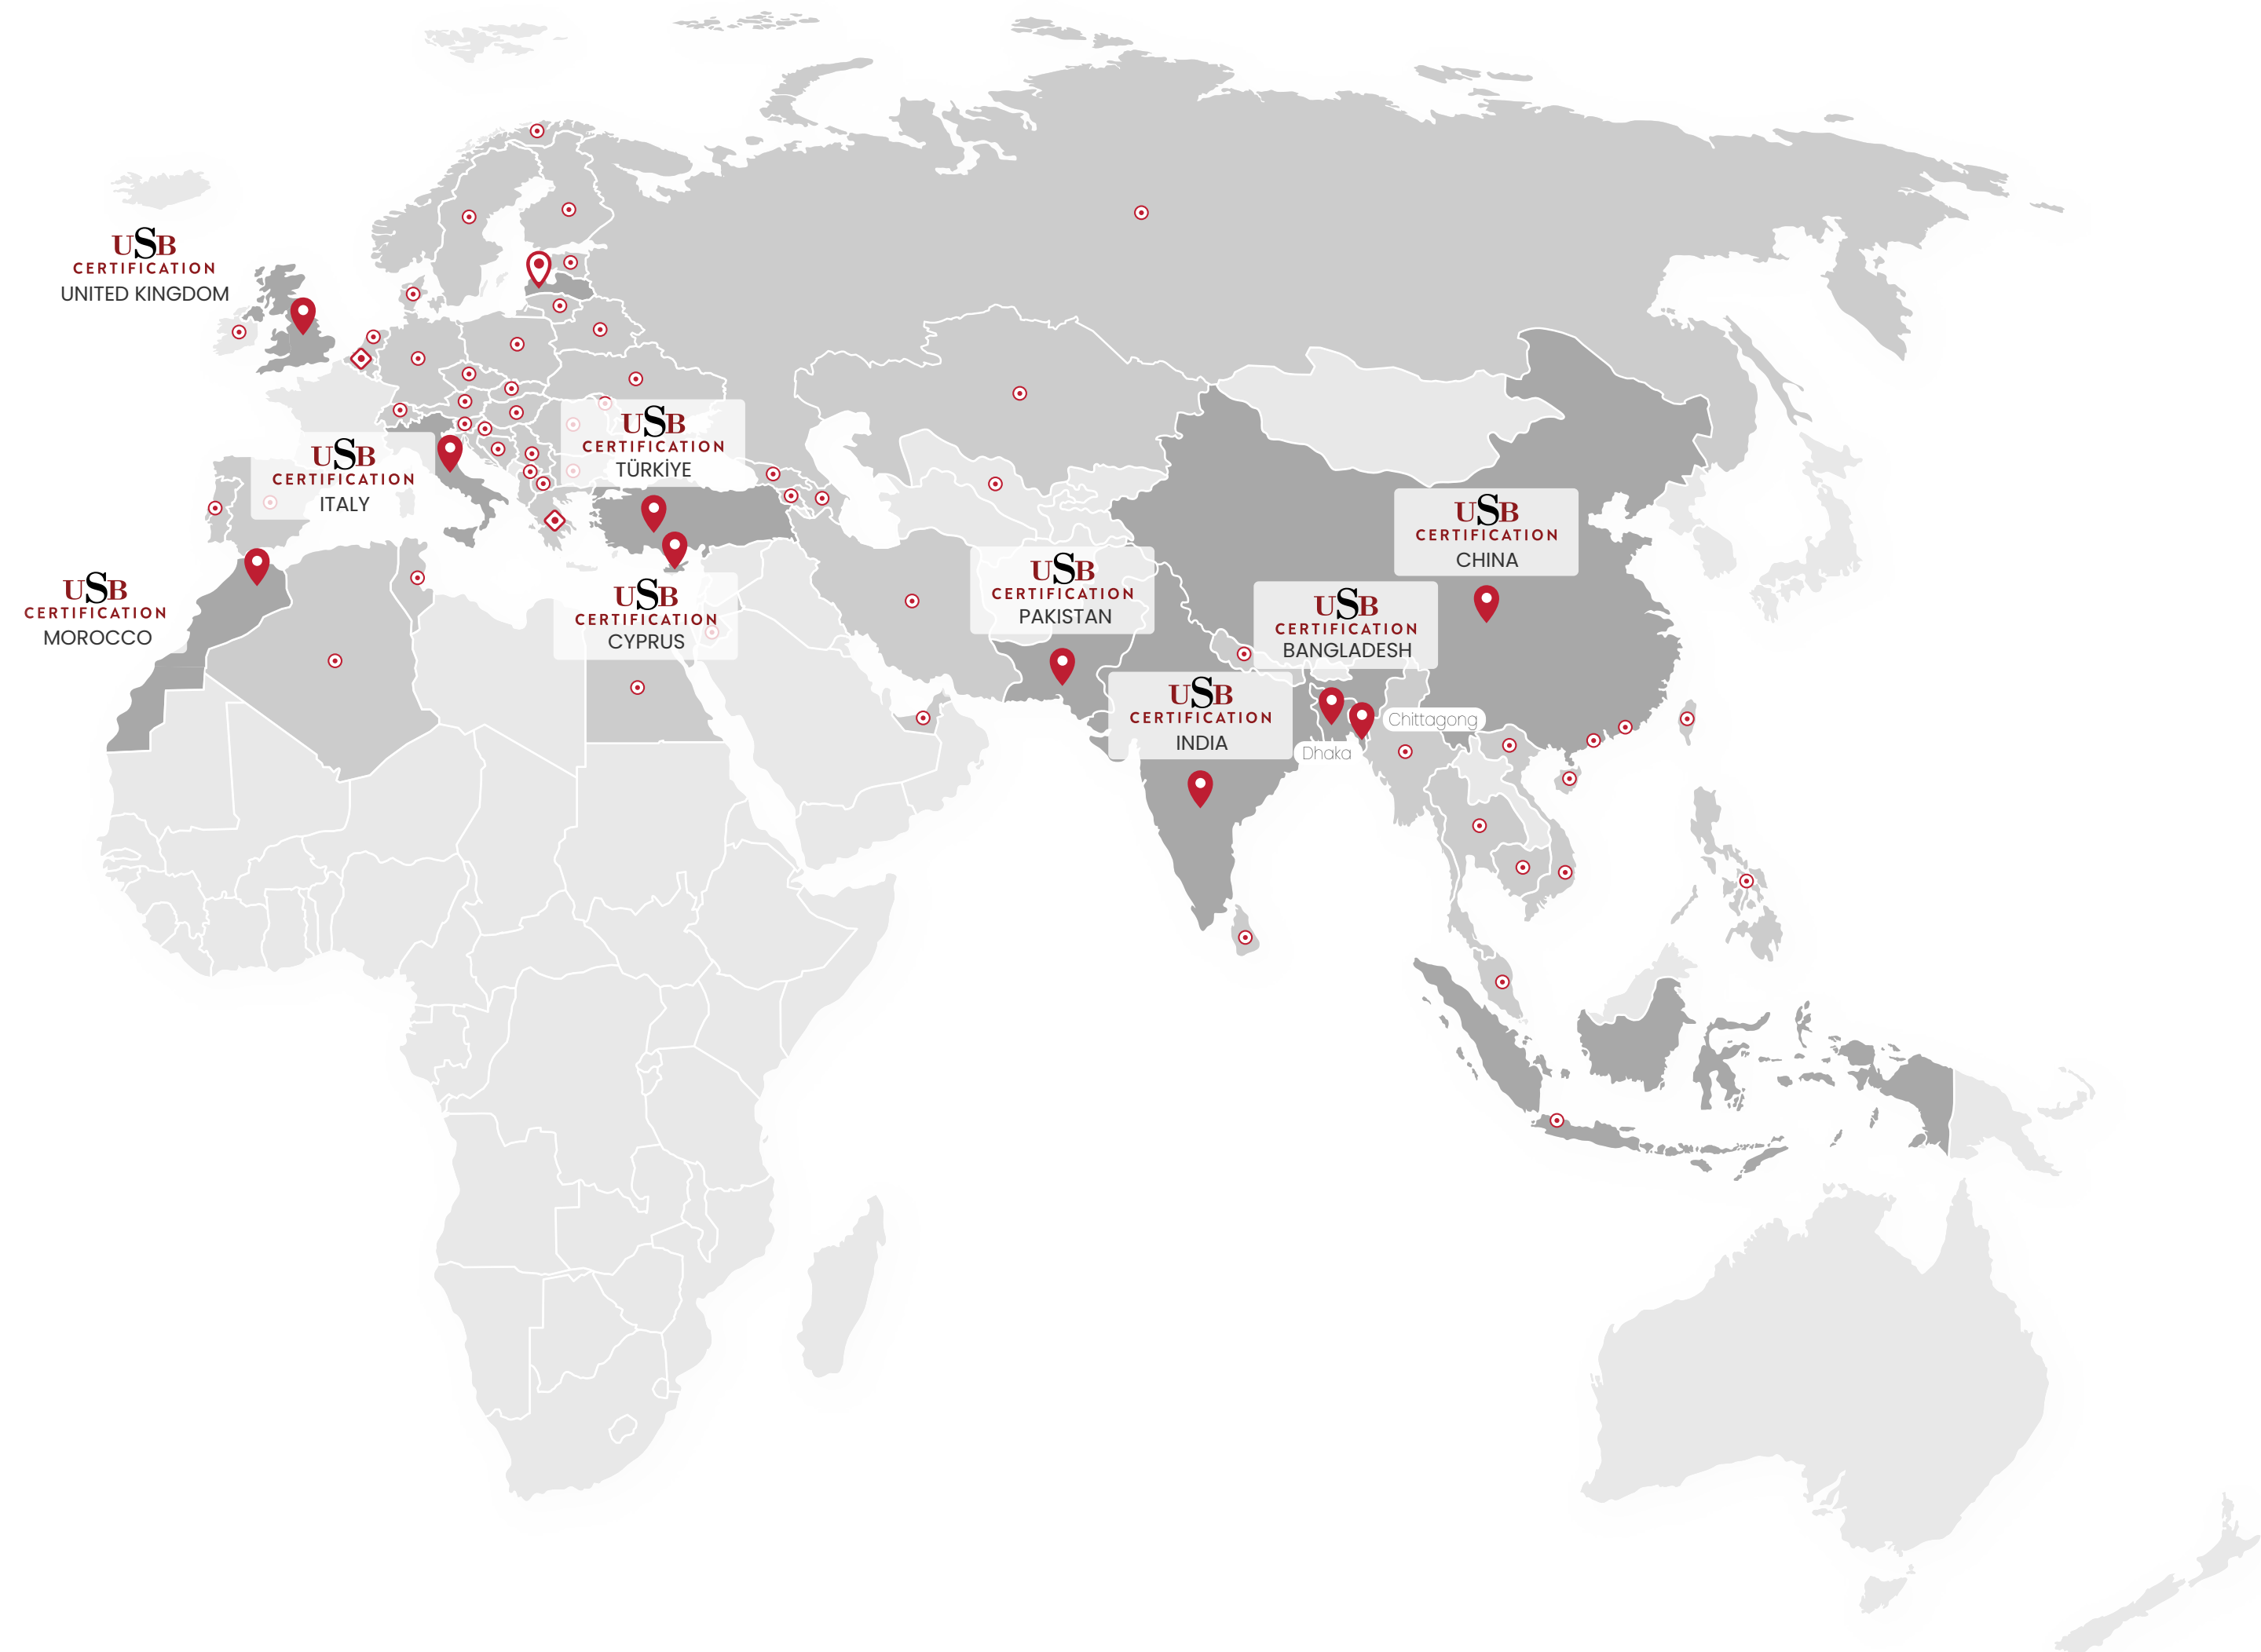

*UK, Italy, Türkiye, Cyprus, Morocco, Pakistan, India, Bangladesh, China*

### 📍 **USB Representatives**

*Extended network across additional markets and regions*

### 📍 **Fields of Activity**

*Textile, Food, Agriculture, Lab, Industrial, Management Systems & more*

# What Drives Us Forward

## Sustainability Leadership

Guiding businesses through evolving sustainability standards with expertise, integrity, and environmental and social responsibility.

## Digital & Data Intelligence

AI-powered systems, digital documentation, and integrated audit platforms for faster and smarter decisions.

## Regulatory Compliance

Proactive compliance with EU and global regulations (ESPR, EPR, DPP, GOTS, Textile Exchange, etc.).

## Operational Excellence

Lean processes, expert auditors, global coordination, and consistently high service quality

# OVERVIEW OF SERVICES

## What We Do

USB Certification provides integrated certification, auditing, and testing services across the global supply chain.

### Textile & Recycling

GOTS, Textile Exchange, Better Cotton Initiative, SFA, Regenivate, EN 15343, and many more sustainability standards for global supply chains.

### Laboratory and Notified Body

Accredited testing for PPE, textile, leather, and plastic products; PPE product certification.

### Food & Agriculture

BRCGS, IFS, FSSC 22000, ISO 22000, Rainforest Alliance, Organic Agriculture (TR, EU, NOP), Better Cotton Initiative, and Regenivate.

### Management Systems

ISO 9001, 14001, 45001, 27001, 50001, and more, backed by 28 years of global expertise.

### Brand & Second-Party Supplier Audits

Comprehensive brand and supplier auditing services ensuring compliance and ethical sourcing standards.

### Industrial Certification

EASYCHECK audits covering electrical, machinery, pressure vessels, fire systems, and more.

### USB Academy

Professional training programs in the disciplines of quality, food safety, environment, OHS, textiles, and auditing.

### USB PRUVA

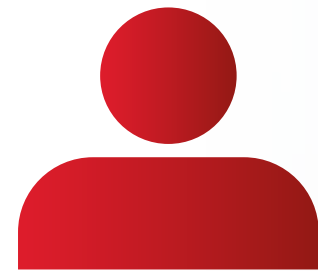

Digital supply chain management platform for certified traceability and document integrity.

## Digitalize Your Supply Chain With USB PRUVA

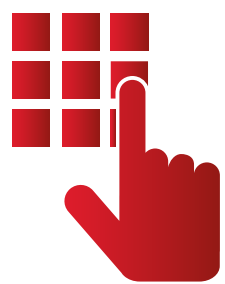

USB PRUVA is our proprietary digital assurance platform designed to strengthen certified supply chain traceability and document integrity. It serves clients in **80+ countries** with language support in **Turkish, English, Italian, French, Spanish, and Chinese**.

**+80 Countries Served**

**+9K Active Users**

**+100K/Year  
Transaction Certificates**

**+7K/Year  
Scope Certificates**

### API Integration

Full integration with your existing systems; accelerates your business processes by eliminating repetitive data entry.

### Brand Module

Real-time visibility into certified supplier actions and access to scope data.

### Scalability

Adapts to the growing needs of businesses of all sizes; protects sensitive information with secure document management and integrated approval mechanisms.

### Automated Verification & Security

Automated certificate verification, secure document workflows; integrated risk and compliance controls.

### On-Demand Reporting

Structured data outputs compatible with leading sustainability reporting tools and frameworks.

**From** raw fiber to finished product; full verification.

## Recycling & Circularity

EN 15343

RecyClass

## Organic & Natural Fiber

Scope 1-4

## Animal Welfare

## IOAS Accredited

Accredited by IOAS, the global authority in sustainability standards.

### Global Organic Textile Standard (GOTS)

Full supply chain certification for organic textile production and approval services for chemical production processes.

### Textile Exchange

OCS, RCS, GRS, RWS, RDS, and RAS certified organic, recycled, and responsible material standards.

### Better Cotton Initiative

Authorized Better Cotton Initiative certification body for farm-level and supply chain auditing and certification.

### Regenerate

Regenerative agriculture and supply chain certification strengthening soil health, supply chain security, and ecosystem restoration.

**USB LAB,** is an accredited laboratory operating in accordance with national and international standards, equipped with advanced technology instruments, offering physical, chemical, durability, aging, and packaging tests.

## Our Testing Capabilities

- Accredited physical & chemical tests on textile, leather, plastic, and composite materials
- Shelf life tests, aging, environmental resistance, UV, and packaging durability tests
- Comprehensive mechanical and chemical tests for Personal Protective Equipment (PPE) products
- In footwear and leather products: tear, cut, puncture, and adhesion resistance (TS EN ISO 20344...)
- In gloves: abrasion, cut, puncture resistance, air/water impermeability, heat & flame resistance (TS EN 388, TS EN 407, TS EN 21420...)
- Chemical analyses: Cr VI, heavy metal content, REACH compliance

## Benefits of Our Laboratory

- **Fast and reliable results**  
Integrated laboratory infrastructure
- **Wide range of tests**  
Over 700 test parameters
- **Expert technical staff**
- **Internationally recognized reports for manufacturers and exporters**
- **Integrated testing capability with CE processes**

**USB**  
**CERTIFICATION**  
UPGRADE • SUSTAIN • BENEFIT

**USB Certification** is a Notified Body recognized by the European Union under TÜRKAK accreditation with the number NB 3038, providing CE conformity assessment services within the scope of the Personal Protective Equipment Regulation (EU) 2016/425.

## Conformity Assessment Modules

### Module B – EU Type-Examination (Annex V)

Technical file of the product, design verification, and conducting all necessary tests in our laboratory

### Module C2 – Production Control + Random Product Checks (Annex VII)

Audit and surveillance of the production process's conformity to the approved type

## Product Scope

- Hand and Arm Protective Equipment
- Foot, Leg, and Anti-Slip Protective Equipment
- Protective Equipment Against Electrical Shock
- Protective Clothing for Use in Welding and Allied Processes
- General Body Protective Equipment (Clothing)
- Respiratory Protective Equipment
- Protective Clothing Against Static Electricity
- Protective Equipment Against Falls from a Height
- Equipment Providing Protection Against Heat and Fire ( $\geq 100^{\circ}\text{C}$ ) and more
- Firefighters' Clothing
- Protective Clothing for Motorcycle Riders
- High Visibility Clothing
- Protective Equipment Against Hand-Held Chainsaws
- Equipment Providing Protection Against Cold
- Protective Equipment Against Chemicals

## Safe Supply Management from Farm to Shelf

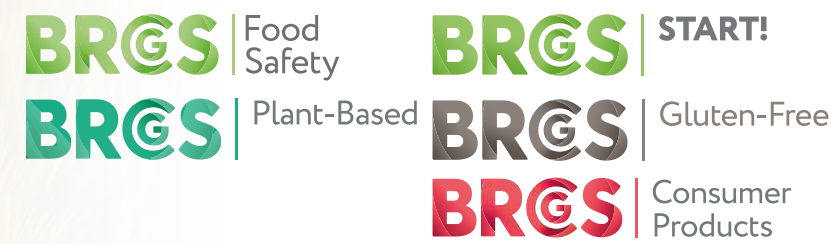

With its expertise in the sector and verification solutions based on international standards, USB Certification is a strong business partner that provides businesses with trust and competitive advantage in global markets in food safety, sustainable agriculture, and supply chain management.

### The only Türkiye-based Certification Body approved by BRCGS and IFS

- ✓ Producing rapid solutions through one-on-one communication with program owners
- ✓ Over 20 years of auditing experience
- ✓ Active operations in Europe and Asia

### BRCGS Programs

### IFS Programs

### Food Safety Management Systems

FSSC 22000

### Organic & Sustainable Agriculture

Directly authorized by the Rainforest Alliance.

Authorized to conduct verification audits carried out within the scope of the OCA (Organic Cotton Accelerator) program.

# BRAND & 2nd PARTY SUPPLIER AUDITS

**Reliable audits** at international standards for global brands

## Brand Audits

Brand audits covering food safety, brand standards, and local regulatory requirements. Over 2,000 restaurant audits successfully conducted each year.

## **easy check**<sup>TM</sup> 2nd Party Audits

Expert audits for suppliers, food processing facilities, hotels, restaurants, gyms, clinics, and more. Over 200 supplier audits successfully conducted each year.

Digital audit management with USB PRUVA  
Flexible audit solutions with custom checklists

# MANAGEMENT SYSTEMS CERTIFICATION

**With our 28 years of deep-rooted experience,** we offer certification services fully compliant with international standards.

# INDUSTRIAL CERTIFICATION

## EasyCheck™ USB Certification's Registered Conformity Assessment Program

### Technical Inspection Services

- Electrical Installation Inspections
- Fire Installation and Alarm Systems
- Ventilation Systems
- Pressure Vessels and Boilers
- Lifting and Machinery Inspections
- Lifting/Conveying Equipment
- Industrial Racks and Doors

### Special Services

- ✓ Hygiene Inspections
- ✓ Supplier Audits
- ✓ Social Compliance Assessments
- ✓ Confidential Client Services
- ✓ Sampling Services

**DRRR**

Inspection and sampling services in accordance with the ISO/IEC 17020 standard.

Over 500 proficiency testing services in line with ISO 17043 and ISO 17034 standards.

Extensive service network in Türkiye, Saudi Arabia, Romania, the United Arab Emirates, and Bulgaria.

### Official DRRR Distributor

- Food and Feed
- Automotive
- Consumer Products / Packaging
- Microbiology
- Medical Devices

## **USB Academy** Building Industry Expertise

USB Academy is our professional training platform offering certification and compliance education across key management, food safety, sustainability, and auditing disciplines – empowering organizations and professionals to meet and exceed international standards.

### Trainings Provided

-  **Quality Management Systems**
-  **Occupational Health and Safety Management Systems**
-  **Environmental Management Systems**
-  **Information Security Management System**
-  **Food Safety Management System**
-  **Lead Auditor**
-  **Agriculture Standards**
-  **Textile**
-  **Laboratory Technical Test Trainings**

# GLOBAL NETWORK

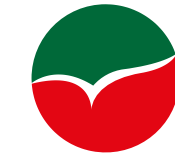

## Our Global Partnership Network

A trusted ecosystem of international partners, members and affiliates delivering world-class certification and conformity services.

### PARTNERS

### MEMBERS & AFFILIATES

# Why Work With Us

Your trusted partner in certification, auditing, and testing processes worldwide.

## Integrated Auditing

Save time and costs with our multi-standard auditing approach that simplifies processes.

## Full Traceability

Guarantee transparency across your entire supply chain with advanced Transaction Certificate management.

## Digital Excellence

Benefit from the speed and accuracy driven by our robust technological infrastructure and continuous digital transformation.

## Expert Support

Achieve operational excellence with our solution-oriented team of experts, responding swiftly to the evolving needs of the industry.

# The Future is Already Here

## AI-Powered Solutions

AI-driven machine learning and smart auditing processes.

## ESG Compliance Auditing

Environmental, social, and governance-focused conformity assessments.

## Circular Economy

Circular economy certification under Recyclclass, Cradle to Cradle Certified™, and EN 15343 standards.

## Regenerative Agriculture

The Regenerate Program supporting soil health and ecosystem restoration.

## EU Regulation Compliance

Preparation and compliance support for PPWR, ESPR, and DPP requirements.

## Digital Product Passport

DPP integration providing full transparency and traceability across the entire supply chain.

**USB Certification is shaping the future of conformity assessment.**
